Translated Children's Books (ages 8-12)

Criteria

Adjudicating criteria for children and adolescent literature in translation

Definition of *Translation* in this context for the purpose of competing for the Award is the following:

a *linguistic interpretation of a literary text of universally-accepted literary genres originally written in any language (to be referred to as the Source Language) into Maltese (to be referred to as the Target Language)*.

Linguistic interpretation is hereby defined as:

a textual rendering where a reasonable balance is kept between “faithfulness” to the original authorial intention in both content and form, and the translated/adapted text incorporating intrinsic and accepted literary values in its own right.

Broadly speaking, there are **two main criteria**, to be adhered to:

1. The texts translated are to have **as close and as faithful an interpretation as possible to the original**, whether this text is directly translated from the source, or whether through the intermediary bridge language of English.

Faithfulness (accuracy and precision) 60%

significance of the translated work in terms of subject matter for the target culture/audience

evidence of close, critical and creative reading of original text leading to valid & faithful interpretation

translator's knowledge of the *source text* historical, political, socio-cultural & literary context in which the text was produced

nuanced sense and appreciation of the discourse-stylistics of the original (i.e. use of language for the desired effect/s) and use of additions and deletions to find an equivalence of meaning

2. The translated texts for the three categories: children - ages 0-7, children - ages 8-12, and young adult literature, that is, those translated **directly** in the target language Maltese from the four languages: French, Italian, German, Spanish are to be **judged on their own literary linguistic merits, as distinct from their adherence to the original form and content.** Effectively, these translated texts in all the accepted categories (Books for Children, ages 0-7 and 8-12, and Books for Young Adults) are to be adjudicated through the criteria as stated below. The mark calculated from the criteria marked below should reflect **40% of the total mark.**
